EMPLOYMENT HISTORY

Software Engineer at Kinexon, Munich, Germany

February 2024 — Present

- Responsible for the front end development for the LPS product and back end development in the SensorNetwork.
- Quickly learned and understood complex relationships between our hardware and software applications.
- Completed multiple refactors to reduce technical debt and promote clean and maintainable code.
- Wrote back-end services as well as tests to insure proper functionality.
- Developed and designed UI's to modernize existing applications.

Career Transition, Garmisch-Partenkirchen

November 2022 — February 2024

- Began learning how to code on my own in 2022.
- Attended IronHack Coding boot-camp in the spring of 2023,
- Continued to study and teach myself through various mediums, which ultimately led to my success in finding a job

Account Executive at Shopmonkey, Salt Lake City

March 2021 — November 2022

- Regularly met and surpassed monthly quota target and recognized as a top performer of the team
- Represented the sales team for the enablement cohort (Cross departmental committee for product updates, changes, new processes, etc), also led sales training for the sales team.
- Prepared and delivered on-site presentations to high profile prospective customers

Account Executive at Podium, Salt Lake City

May 2019 — March 2021

- Met and Surpassed monthly quota regularly
- Maintained a rigid schedule of arriving at the office before 6 AM
- Top Performer of 2019 and was invited to be part of the Founders Club
Promoted 3 times within 2 years

Assistant Coach at University Of Utah, Salt Lake City

August 2018 — May 2019

- Assistant Coach for the Inaugural Division 1 Season
- Served the organization as a captain for two consecutive seasons
- Instrumental in building the culture and laying the foundation for future NCAA athletes
- Offered the position as an assistant coach by Head Coach Brian Holman after senior season

EDUCATION
